  3. What are Memos? Explain in detail a Business Memo.

II. Read the following comprehension passage and answer the question that follow.

Between us there was, as I have already said somewhere, the bond of the sea. Besides holding our hearts together through long periods of separation, it had the effect of making us tolerant of each other's yarns-and even convictions. The Lawyer-the best of old fellows-had, because of his many years and many virtues, the only cushion on deck, and was lying on the only rug. The accountant had brought out already a box of dominoes, and was toying architecturally with the bones. Marlow sat cross-legged right aft, leaning against the mizzen-mast. He had sunken cheeks, a yellow complexion, a straight back, an ascetic aspect, and, with his arms dropped, the palms of hands outwards, resembled an idol. The Director, satisfied the anchor had good hold, made his way aft and sat down amongst us. We exchanged a few words lazily. Afterwards there was silence on board the yacht. For some reason or other we did not begin that game of dominoes. We felt meditative, and fit for nothing but placid staring. The day was ending in a serenity of still and exquisite brilliance. The water shone pacifically; the sky, without a speck, was a benign immensity of unstained light; the very mist on the Essex marshes was like a gauzy and radiant fabric, hung from the wooded rises inland, and draping the low shores in diaphanous folds. Only the gloom to the west, brooding over the upper reaches, became more sombre every minute, as if angered by the approach of the sun. And at last, in its curved and imperceptible fall, the sun sank low, and from glowing white changed to a dull red without rays and without heat, as if about to go out suddenly, stricken to death by the touch of that gloom brooding over a crowd of men. From 'The Heart of Darkness', by Joseph Conrad

1. The narrator of this passage is telling his story from: 5X1=5  
A: a wharf.      B: the deck of a yacht.      C: a high vantage point.  
D: the edge of the Essex marshes.      E: None of the above.
2. The mood of the men in this passage is best described as:  
A: surly.    B: resigned.    C: contemplative.    D: restless.    E: ecstatic.

16. It was Gandhiji who developed Ahimsa or Non-Violence as a powerful weapon. Using this weapon he won freedom for India. He was highly conscious about inner meaning of Ahimsa. Gandhiji followed the path of Ahimsa as preached by Sreebhudh. Ahimsa is a reflection of kindness shown towards all living beings. An ideal human being is a person who follows Ahimsa both in words and actions. It was when Ahimsa witnessed the sight of thousands of corpses at the battle field of Kalinga that he realized the true meaning of violence. The conscious stricken emperor then decided to accept the path of Sreebhudha.
